

## Enhancing the Management of Wallings Nature Reserve

### Type of priority area

Indigenous and Community Conserved Area (ICCA)

Conservancy

Key Biodiversity Area

### Primary objective

Management Effectiveness

Livelihoods

Governance

### Target groups

Local Communities

Private Sector

National Government

### Main activity focus

Management Plan

Protected Area Management Effectiveness (PAME)

Awareness/education

**Duration**  
01.01.2022 – 31.05.2022

**Type of grant & budget**  
Small Technical Grant for Assessment Assistance | € **Not provided**

**Location**  
Antigua and Barbuda, Caribbean

**Protected & Conserved Areas**  
Wallings Nature Reserve

**WDPA ID**  
**Not Provided**

**BIOPAMA RRIS Link**  
**Not Provided**

### Project Lead

Wallings Nature Reserve

### Description of the project :

This project will address the following objectives based on the protected areas associated with the project:

1. Literature review geared at collating information on the biodiversity and environmental characteristics.
2. Stakeholder consultations and drafting of the initial assessment.
3. Interviews with the staff Interviews with the GOAB responsible for PA management, Interviews with Forestry Unit.
4. Identify challenges and work with stakeholders to develop processes to address the issues.
5. Gap Analysis Report
6. Development of priority action plan for management

#### Diagnostic Tools Used

Small Technical Grant for Assessment for improved protected areas management and governance (STGA)

#### The BIOPAMA Action Component Objectives Addressed

✓ Small Technical Grant for Assessment for improved protected areas management and governance (STGA)

#### Priority Need Addressed

✓ Enhancing protected area management

#### The change the project implementation will bring for the protected areas

The METT tool will assist the team to better manage the reserve. There will be better collaboration between Wallings Nature Reserve and key stakeholders and government agencies and the creation of a priority action plan for the next five years for the activities to be implemented by the management team at Wallings Nature Reserve.

This project is financed by the European Union and the Organisation of African, Caribbean and Pacific States through the BIOPAMA Programme. The contents of this material are the sole responsibility of the Toledo Institute for Development and Environment (TIDE) and can under no circumstances be regarded as reflecting the position of the EU nor of the OACPS.

The project Enhancing the Management of Wallings Nature Reserve is financed by the European Union and the Organisation of African, Caribbean and Pacific States through the Biodiversity and Protected Areas Management (BIOPAMA) Programme.

BIOPAMA assists the African, Caribbean and Pacific countries to address their priorities for improved management and governance of biodiversity and natural resources. BIOPAMA provides a variety of tools, services and funding to conservation actors in the African, Caribbean and Pacific (ACP) countries. The BIOPAMA grant-making facility is managed by IUCN (International Union for Conservation of Nature) and supports projects on the ground to strengthen the management and governance of protected and conserved areas, with a total budget of 21 million Euros.
